## TIDE Addresses International Urban Dysfunction

## Global Enrichment is the Goal

TIDE answers the international call against the global increase of anti-social activities, the woes of urban living, poverty and environmental ruin. TIDE maintains an 8-tiered delivery system, when implemented, expands the intellectual, financial, economic and political interaction within a community.

Each TIDE solution segment compliments the whole, sufficient to remedy the social, economic and environmental ills faced in any global metropolis.

**1. Intellectual Sovereignty** - Lack of understanding and application keeps vast global populations economically, politically, socially, environmentally and intellectually impotent, and subservient to poverty and crime. TIDE's sole aim is to inspire a driven society towards applying **intellect** in gaining **sovereignty** from the controls working against them and their descendants.

**2. Financial Independence** - Applied financial literacy skills are key to establishing individual and community economic independence. TIDE communities and residents are empowered by financial mentors to understand, interact with and hone the financial and economic landscape for their best interest.

**3. Chivalrous Mentoring** - The absence of community engagement and leadership for community youth has resulted in plunging property across the globe. TIDE's mentoring programs assure willing communities benefit from the knowledge, skill, ability, and experience supplied by mentors.<sup>1</sup> Coaching techniques administered to young adults builds human capital in the community, which will end the effects of dissidence and community imprisonment.

**4. Community Protection/Security Operations (CPSO)** - TIDE incorporates multi-faceted CPSO programs to establish safety boundaries using residential enabling, Tactical Team training and advanced security systems. Effective assessment & response protocols assure personal and property protection restoring our diverse communities into civil societies.<sup>2</sup>

**5. Healthy Lifestyle** - Health disparities in disadvantaged communities are well documented and reversible. TIDE fulfills the need, recovering communities through programs including; (1) access to healthy foods; (2) improved air and water quality; (3) reduced crime and fear of safety; and (4) physical fitness activities, providing an antidote to the numerous ills afflicting global communities.<sup>3</sup>

**6. Moral/Humanity Compass of Excellence** - Communities across the globe suffer greatly when the population is powerless. TIDE implements community engagement programs to enrich personal, economic, political and religious development. As community participation and control are heightened, stakeholders reap ROI as intermediate social, health, political and economic outcomes are elevated.<sup>4</sup>

**7. Architectural/Agricultural/Engineering** - Global urban populations are growing at a historic rate.<sup>5</sup> We now confront the urgent need for

sustainability in the face of disintegrating human and environmental well-being. TIDE showcases sustainable urban development processes and metropolitan planning to ease disparities and return substantial financial, environmental, and societal profits to these areas.

**8. Restoration Human Resources (RHR)** - This outsourced sector will emphasize maximizing employee productivity. RHR manages recruitment, onboarding, termination, compensation and benefits, while remaining mindful of regional laws which may potentially affect the TIDE organization and its employees.

The global challenges of urban disfunction are many and meaningful. Humanity is capable of rectifying the darkness which envelopes communities. TIDE, rich in ample means to disable international urban living's critical issues, presents a complete infrastructure. TIDE will develop partnerships with local, federal, global governments and ethical stakeholders to eliminate intellectual, financial, economic and political disparities for the betterment of a global society.
